DETAILED ACTION

Specification

1. The disclosure is objected to because of the following informalities: There is no explanation in the "Detailed Description of the Invention" of the preferred embodiment shown in newly added Fig.10A.

Appropriate correction is required.

Drawings

2. The drawings are objected to as failing to comply with 37 CFR 1.84(p)(5) because they include the following reference sign(s) not mentioned in the description: "elements 60,12,30,16,18" as shown in new added Fig.10A. A proposed drawing correction, corrected drawings, or amendment to the specification to add the reference sign(s) in the description, are required in reply to the Office action to avoid abandonment of the application. The objection to the drawings will not be held in abeyance.

Double Patenting

3. The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

4. Claims 33-37 and 42 are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1-5 and 32 of U.S. Patent No. 6,424,269 in view of LAMPARTER (5,634,287). Claims 1-5 and 32 of U.S. Patent No. 6,424,269 recite the invention substantially as claimed except for arranging the light emitting diodes in a single row. LAMPARTER shows in Fig.4 that it is well known to arrange a plurality of light emitting diodes in a single row on both sides of a multiple warning light such as U.S. Patent No. 6,424,269 for the purpose of providing multiple visually distinct warning signals simultaneously, see col.4, lines 43-63. It would have been obvious to one of ordinary skill in the art at the time of the invention to arrange the light emitting diodes recited in claims 1-5 and 32 of U.S. Patent No. 6,424,269 in a single row as taught by LAMPARTER for the purpose of illuminating indicia and providing a flashing warning signal to provide multiple warning signals simultaneously.

Response to Arguments

5. Applicant's arguments filed 11/18/03 have been fully considered but they are not persuasive. Applicant's amendments and remarks overcome the 35USC112 rejection. Although applicant's terminal disclaimer overcome the double patenting obviousness rejection based on U.S. Pat. No. 6,472,996, the terminal disclaimer does not overcome the other double patenting obviousness rejection based on U.S. Pat No. 6,424,269. A timely filed terminal disclaimer as noted above would obviate this remaining rejection.

Conclusion

6. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
